WALLACE'S
Paywell Indiana U.S.R.O.P.

BARRED ROCKS

For more than 28 years the Wallace "Paywell" strain of Barred Rocks has been bred for good health, heavy laying, large eggs, large body size and fast forward meat quality. It's the improved sweeping strain backed by years of pedigree breeding, family selection, and Pullorum control. For extra eggs and better meat birds, raise Wallace "Paywell" Barred Rock Chicks from our U. S. Certified Matings.
