

BOOST POULTRY PROFITS

WITH HIGH HATCHES OF STURDY CHICKS

Let Vitamin-Rich Super Greens Pellets Help You Get High Hatchability and Produce Sturdy, Livable Chicks

BREEDING FLOCKS need a ration that's rich in vitamins to help fatten flock health and produce eggs that will give you high hatches of strong, livable chicks. Many of the country's successful poultrymen are giving their birds these necessary health nutrients by feeding a vitamin-rich Ful-O-Pep Super Greens Pellets along with their main.

FUL-O-PEP SUPER GREENS Pellets are fortified with Nascor's Riboflavin Vitamin Combination, Concentrated Spicing Range[®], and boost helps breeders produce big, husky, livable chicks with deep yellow-colored shanks... helps increase hatchability... helps maintain proper feed intake for maximum egg production... and helps layers gain strength and resistance to cold.

YES, THESE VITAMIN-RICH Pellets may help you increase poultry profits. So do as many successful poultrymen are doing... fatten your breeding flock with Ful-O-Pep Super Greens Pellets to help keep brooders healthy and get top-quality eggs which yield high hatches of sturdy, livable chicks.

MENS TAKE to Super Greens Pellets readily. Sprinkle a few on top of the mash according to directions. Write today for more information.
