THERE'S NO GUESSWORK ON FARM BUREAU FEEDS

Every bag of Farm Bureau feed carries a special tag stating the exact number of pounds of every ingredient used. This "open formula" policy was pioneered by the Co-op for one reason; to let its patron-owners know *everything* they're getting for their Farm Bureau feed dollars. It's one more reason why so many farmers are saying, "You can trust Farm Bureau feeds for quality and performance."
