At Woodlawn, our people
are at the *heart* of what

The People.

we do. We're your friends, your neighbors, your relatives, who live, shop and raise our children in the same places you do. And while we live and work here, we've each made a commitment to you and your good health. Because at whatever stage we enter your life, you'll find us to be dedicated professionals, focused on keeping you, your family and our community healthy.

The Technology.

It's no secret that in today's healthcare world, technology is constantly changing. As newer and more advanced healthcare technology becomes available, we evaluate and assess its application to meet our community's needs. For example, with our new C.T. Scanner, used to detect abnormalities in the head, chest and abdominal organs, we can reconstruct images significantly faster than with previous scanners and reduce test times by more than half.

Everyone talks about quality healthcare, but it's an empty slogan if it isn't administered by committed healthcare professionals, people you know, people who genuinely care, using the most advanced technology available. And you know the best part of all? *It's all right here at home.* Woodlawn Hospital.

Right here at home.
