All showing smiles in Spain for the Spanish summer trip!

This past summer, Josh Foster had the opportunity to study English at Harvard University. The decision to attend an academic event for the greater part of his summer was a tough one, but he felt that the positive consequences outweighed the negative.

The classes he took there were more challenging than anything he has yet experienced, but it wasn't all work and no play. He and his Wigglesworth Hall floormates would spend time out on the town of Cambridge eating, partying, walking, or just hanging out. Josh feels it was a great educational and cultural experience.

Hannah Boggs and Hannah Krueger play some summer league ball.

"I like the fact that kids choose to be in this class, they will be able to use what they learn in their lives. It's quite amazing!"

What would you do if you were to win the lottery?

"If I did win the lottery I would give up my job ... I have hobbies I enjoy doing - like shopping."

But say you didn't want to give up your job?

"Then I think it would be fun to go to the graduates and give them a huge check for college."

Mr. Rogers

"The younger generation has a lot of cool business ideas. I like to teach the students in business how to use those."

What would you do if you were to win the lottery?

"If I won a huge lottery I would still coach. But if it were a small amount, then I would still teach business, because I enjoy it."

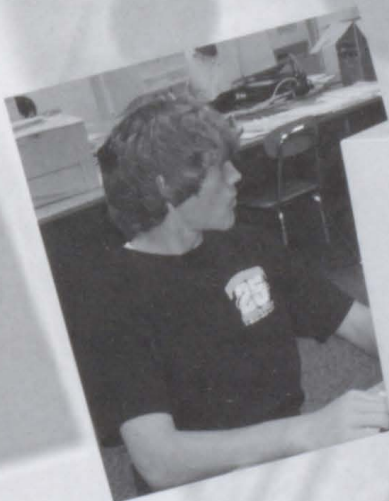

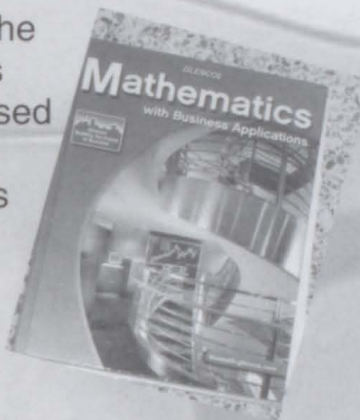

There are a lot of business classes to choose from: Career Planning and Success Skills, Business Foundations, Digital Communication Tools, Computer Applications, Accounting 1 and 2, Marketing, Entrepreneurship, Business and Personal Law, Business Mathematics, Technical / Business Communication, Business Management, Desktop Publishing, and Web Design.

to Business!!!

One of the fabulous books used to teach business math.

Josh Doody in Mr. Rogers' class.

Mr. Bahney, a teacher of seven years, was proud to say that he has only taught here at Tippecanoe Valley. Bahney was only 21 when he decided to be a business teacher. It was with the influence of a family member that he changed his original major of accounting to a major in business. When asked what the most interesting aspects of being a teacher were, he got serious. "As a teacher, there's a saying that if you impact one student then all the rest is worth it," replied Bahney. This was after he told the story of a foreign exchange student who (after completing the class in his second year of teaching) left him a note saying how much she enjoyed his class and appreciated him teaching. But what if he won the lottery? When asked, he replied, "If it means I don't have to work anymore then yes, I would give up teaching."

“ PET PEEVES ”

My pet peeve is when people DON'T put the twisty ties back on the bread.

-- Garrett Penn

My pet peeve... putting the twisty ties back on the bread bags. They're worthless.

-- Courtney Schmucker

My pet peeve...kids that lie to my face

-- Mrs. Sheetz

My pet peeve... when people do something to make me mad, then they ask me why I'm upset.

--Cynthia Gomez

My pet peeve... when people tell me I'm wrong when I know I'm right. Like David calling me wrong over movie trivia... I was right! In his face >.<

-- Kayla Ono

My pet peeve... when students make excuses and all their whining.

--Mrs. Mills

My pet peeve is when people trip me in the hall !! (Rosten) and they just keep trying over and over again. oh and I hate it when someone will tell us to do something but then they talk forever and we can't do it. Oh and I hate when people get in everyone else's conversations...

...

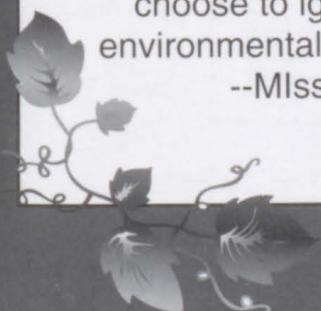

...

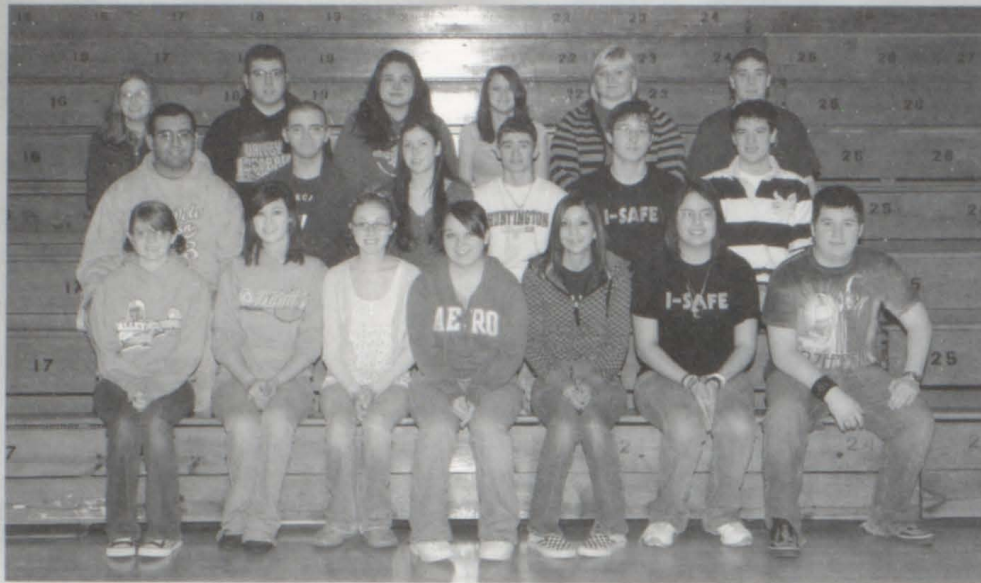

I hate when people ramble

-- Leticia Garcia

My pet peeve... people that choose to ignore environmental issues

--Miss Day
