## Recipes

### Ingredients

24 circular pretzels

24 milk chocolate candy kisses

1 (1.69 ounce) package mini candy-coated chocolates

### Directions

1. Preheat oven to 350 degrees
2. Place pretzels on baking sheets. Unwrap candy kisses place one in the center of each pretzel
3. Place in preheated oven 1 or 2 minutes, until kisses melt. Remove from oven and place one candy-coated chocolate in the center of each pretzel. Chill in refrigerator until set.

Hawksbills are named for their narrow, pointed beak. They also have a distinctive pattern of overlapping scales on their shells that form a serrated-look on the edges. These colored and patterned shells make them highly-valuable and commonly sold as "tortoiseshell" in markets.

Hawksbills are found mainly throughout the world's tropical oceans, predominantly in coral reefs. They feed mainly on sponges by using their narrow pointed beaks to extract them from crevices on the reef, but also eat sea anemones and jellyfish. Sea turtles are the living representatives of a group of reptiles that has existed on Earth and travelled our seas for the last 100 million years. They are a fundamental link in marine ecosystems and help maintain the health of coral reefs and sea grass beds.
