

*Bell, Lawrence*

RESOLUTION OF MEMORIAL TRIBUTE

To

LAWRENCE DALE BELL

Adopted by the Executive Committee  
New York Heart Assembly

January 17, 1957

Syracuse, N. Y.

It was for the very considerable benefit of society that Lawrence Dale Bell gave of his prestige and competence in providing leadership to local, state and national programs of the voluntary Heart movement.

Mr. Bell thus extended the fine traditions of voluntary public service by men who have earned preeminence in their vocations, as he utilized the qualities of forcefulness and vision that had made him a splendid pioneer in the field of aviation.

In his home area, through the Western New York Heart Association, Mr. Bell was a source of much valued support and guidance, both individually and together with the staff of the Bell Aircraft Corporation. In view of the magnitude of his talents, his active interest was also sought for the state and national scenes.

As Honorary Chairman, Mr. Bell gave impetus to the statewide Heart Fund drive under the sponsorship of the New York Heart Assembly. As a member of the Board of Directors of the American Heart Association, and of its Executive Committee, he turned his sound judgment and counsel to matters of policy.

Therefore, it is with a profound sense of sorrow and loss that the Executive Committee of the New York Heart Assembly records the death of Lawrence Dale Bell, and extends its sympathy to members of Mr. Bell's family and his associates. The Committee is deeply conscious of the fact that in the cause of Heart, as in the field of aviation particularly, and the free enterprise system generally, the accomplishments and example of Lawrence Dale Bell will endure.
