

# INDIANA

## *Directory to Cottage Industries*

Published by:  
Division of Agriculture, Indiana Department of Commerce  
Lt. Governor John M. Mutz, Director

## A MESSAGE FROM THE LT. GOVERNOR

Popcorn, sorghum, maple syrup, honey, candy and wine represent only some of the products produced at cottage industries in Indiana. Many of today's large corporations started out as cottage industries with family members as the work force. Hoosier producers take special pride and care in their products to ensure that Indiana and other Midwest consumers get the quality and homemade goodness they desire.

The direct sale of these products represents an important marketing opportunity for many cottage industries. The businesses listed in this directory represent more than \$10 million in annual sales of cottage industry products. Several of these businesses provide mail order service for their goods or maintain a retail outlet where the product is made.

With this guide book we encourage you to "Wander Indiana" and the cottage industries that help make our state a place where you have the best of everything.

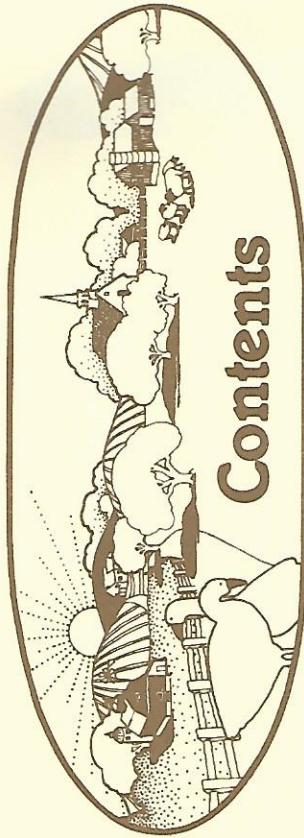

A handwritten signature in cursive script that reads "John M. Mutz".

John M. Mutz  
Lieutenant Governor  
Commissioner of  
Agriculture
