MENTONE AGAIN WINS

The Orange and Black boys again came out in the lead after a hard fought, overtime game with Tippecanoe last Saturday evening. The final score being 20 to 14 in our favor. Mentone lead their opponents at the end of the first half by a score of 5 to 2. It was no ones game during the last and altho Mentone had a six point lead near the last of the game Tippecanoe staged a wonderful rally and almost as the whistle blew they again tied the score.

Five minutes overtime was called and in the first minute Dunnick and Aughinbaugh, each got a field goal; Tippecanoe called time out but Capt. Aughinbaugh scored two more points in the next minute on free throws despite the fact that Tippecanoe fans yelled loudly all during the throws. Officials were unable to quiet them. Mentone had full swing of the game for the last three minutes altho they were unable to score again.

The lineups were as follows

Mentone	Tippecanoe
Aughinbaugh	F
Dunnick	C
Johns	F
Jones	G
Blackburn	G

Horn was substituted for Johns; Whetstone for Horn and Horn for Whetstone. Nellans for Fites and Fites for Nellans on the Tippecanoe team. Bunner of Mentone was unable to play because of sickness. The two outstanding players for Mentone were Horn and Jones; Blackburn played a wonderful game of guarding, while Aughinbaugh and Dunnick made some nearly impossible baskets.

Next Thursday both the boys and girls teams play Silver Lake at the Harrison Community School. The cars leave here at 7:04 and there at 10:18, so it is possible to see both games. The proceeds of this game go to the senior class for their annual. The admission will be 20 and 25c. Any support will be appreciated by both the team and the senior class.

JUNIOR SENIOR HALLOWEEN PARTY

On Oct. 28, Maxine Arnsberger and Ira Anderson gave a Halloween party in honor of the junior, senior and faculty at the home of Maxine Arnsberger.

The house was very prettily decorated. All the guests came masked and after guessing who each one was games were played and various stunts were performed. Delicious refreshments were served, and we departed at a late hour thanking the host and hostess for having spent a very enjoyable evening.

SHOWER FOR MR. AND MRS. CARLIN MYERS JR.

A shower was given last Saturday evening at the home of Carlin Myers in honor of Mr. and Mrs. Carlin Myers Jr., of Findlay, Ohio. A number of beautiful and useful presents were presented the bride and groom and the guests were served with ice cream and wafers before leaving for their homes.

SOCIAL EVENTS

ROYAL NEIGHBORS HAVE HALLOWEEN CELEBRATION

Members of the Royal neighbors met at their hall Saturday evening for their Halloween celebration. About forty came masked and enjoyed the evening together. One of the big masked parties was the Uncle Sam troop consisting of Uncle Sam, The Goddess of Liberty, Soldiers and Sailors. Mrs. Fern Carter and Mrs. Chas. Williamson took prizes for the fanciest costumes, and Mrs. John Underhill won the prize for the most freakish one masked.

A FAREWELL PARTY.

A number of friends met at the home of Josh Blacktor at Talma last Friday evening and pleasantly surprised them. The affair was in the nature of a farewell party as they are leaving in the near future for Minnesota where they will make their future home. Those present were Mr. and Mrs. Wm. Denner, Delbert Hunter, Mr. and Mrs. Del Finney and son Alvin, Mr. and Mrs. William Mickey and daughter Betty, Thelma and Miriam Hudkins, Bert Busenbarg and family, Victor Tabley and family, Mainin Deemer and family, Misses Edith and Jessie Holloway, Mr. and Mrs. Jacob Gross and daughter Mary, Elvise King, Mr. and Mrs. Orlando Horn, Dorothy and Ray Alderfer, Mr. and Mrs. Cummings and daughter Edith, John King and Joseph Thrall.

ATTEND BIRTHDAY SURPRISE

Several guests from Syracuse came down last Sunday morning to help Burdette Holloway celebrate his birthday. Those enjoying the fine day and dinner together were J. E. Klink, Miss Eloise Holloway, Mrs. E. Holloway Mr. and Mrs. Hallie Holloway and little daughter Maxine Mr. and Mrs. Zerbe and Mr. Mrs. Wm. Darr.

CLASS MEETING

Mrs. Bert Busenbarg entertained the members of the Young People's class of the Christian church of Talma at her home southwest of town last Wednesday evening. Republicans Win in This County

The election Tuesday in Kosciusko county was a complete victory for the Republican party as every Republican candidate was elected; some by a large majority and others not so large. Now, that these men are in office (whether we were responsible for putting them there or not) it is our duty to do all we can to help them, and they should not forget their duties as county officials. Let's hope and trust that it will all be for the further progress of the county, state and nation, in which we make our home.

MENTONE'S HALLOWEEN CELEBRATION A BIG SUCCESS

The big municipal Halloween celebration put on by the business men and citizens on main street last Friday evening surely hit the spot according to reports reaching our ears—in fact everybody is saying they had a fine time and enjoyed the free weinies, free buns, free entertainment and the free prizes. The crowd was so large—far larger than we expected—that our plans were too small as we did not have room enough to stage the big parade as was intended—and as it should have been. This also caused a little trouble for the judges to pick the costume prize winners and they were unable to give us a complete list of those winning prizes. The oldest man masked was John McGowan and the oldest lady was Mrs. John McGowan, living near Burket. The youngest child masked was Master Milton Bashore Thacker, son of Mr. and Mrs. Carl Thacker of Silver Lake and the age of this prize winner was twenty-seven days. The "Rube" orchestra prize went to a Burket orchestra, which was composed of a bunch of "darker" musicians. If you missed their entertainment, don't do so again. Two hundred pounds of weinies were used and a bun accompanied each weinie, and all enjoyed the fun of roasting them around the big log fires. The entire evening was spent in a clean, enjoyable way and we hope to make our Halloween celebration an annual affair.

MAMMOTH PREPARATIONS FOR INTERNATIONAL STOCK SHOW

The management of the International Live Stock Exposition is making great preparations for the staging of the quarter-centennial celebration of this world-famous educational institution at the Chicago Union Stock Yards, November 29 to December 6th. From advance indications, this will be the largest gathering of the agricultural interests of America ever brought together and many special occasions will mark this history-making event. Every one interested in any way in the basic industry should make a special effort to attend this great round-up of the agrarian resources of the continent and enjoy a week of pleasure and profit at the metropolis.

In commemoration of the importance of this event, Congress, by special act, has authorized the United States Department of Agriculture to award official medals to all winners of first prizes and championships in the live stock competitions at the coming show. The Department itself will fill an entire exhibit hall with a display of its various lines of activity.

The International Live Stock Exposition will be "international" in character as well as in name. In addition to the Canadian exhibits and delegations, several foreign countries are expected to be represented. Three famous live stock judges are coming from Great Britain and one from the Argentine to act as arbiters in the various contests among breeders and feeders.

Brilliant evening entertainments will be held each night in the arena, featuring a society horse show and a program of exciting and entertaining events. There will be something of interest and value during the International for every member of the family, both urban and rural dwellers. Reduced railroad rates will be in effect during the week of the show.

Here is a Wolverine shoe for year 'round wear. The tops are high enough to keep out the mud and dirt of the spring and fall, low enough for coolness in the summer and are ideal in the winter to wear under an overshoe. Because of its general utility this Wolverine is one of our largest sellers. Made of Cordovan horsehide, there is almost no wear-out to the upper; our experience has been this upper will wear out on an average two pairs of half soles. Egg Long as a Bean. Egg of birds are among the loveliest things in nature, and they have always held a great fascination for man, says the American Forestry Magazine. From the tiny hummingbird's egg, no longer than a bean, to the giant ostrich's egg, which is between five and six inches in diameter, there is every gradation in size.

Opportunity Gone. While talking to a caller one day I was annoyed by the interruption of my four-year-old daughter who was trying to tell something exciting. She answered disconsolately: "I've lost my story now."—Exchange.

"More and Better Stories!"

THAT was the idea we had when we started to make "Telling Tales" Magazine, and we have lived up to it. Every month there are from a dozen to fifteen complete short stories by such writers as Octavus Roy Cohen, Achmed Abdullah, Harry Lovecraft, Thomas Edgar, Christian Whiting, Furmester, Katherine Merald, Paul Margaret Sawyer, Harry Kemp and Robert W. Steadman. All of these are regular contributors to America's leading short-story magazine.

But don't take our word for it. We want you to know "Telling Tales" for yourself, and as a special inducement we are making the following offer: "Telling Tales" is regularly \$2c, a copy a year, but to give you a chance to get acquainted with it, here's what we'll do: Send us a quarter for one issue—the regular price—and we will send THREE copies instead of the one you paid for. This offer is for a limited time only. The post office won't allow us to make it indefinite. Act quick. Send us a quarter and we will receive the work of magazines. Read 'em! Superstitions About Ears. There are several superstitions about the tingling of one's ears. It was at once commonly believed that if it was the right ear it meant that a friend was speaking well of one. The tingling of the left implied the opposite. Sir Thomas Browne, the famous author of "Vulgar Errors," ascribes the idea to the belief in guardian angels, who touch the right ear or the left according as conversation is favorable or not to the person.

The Oldest Man in the World

Just part of a skull, two molar teeth and a thigh bone! Pieced together they make—what? One of the most perplexing mysteries in the study of human history. Were these the remains of an ape-like man who lived 500,000 years ago?

Scientists believe that they were; they call him the "Dawn Man," and out of the record embedded in the rocks they have reconstructed the conditions of his life. How he killed his food and tore the raw flesh from the bones; how he married and fought and died! How little by little he climbed and climbed his way up to mastery over the beasts. It is a fascinating, gripping story, but it is only one of a thousand stories that stir your blood in this greatest book of modern times.

H. G. WELLS' "Outline of History"

New Offered You at One-Third the Original Price

A history that has been 100,000 years—this great history—since 1860 years ago! It is the story of the world, the story of the human race, the story of the world's progress, the story of the world's future. It is the story of the world's progress, the story of the world's future. It is the story of the world's progress, the story of the world's future.

And The Review of Reviews Too

Wells begins with the dawn of time; before there were men; he tells the story of the world's progress, the story of the world's future. It is the story of the world's progress, the story of the world's future. It is the story of the world's progress, the story of the world's future.

PARENTS SHOULD VISIT THE SCHOOLS

(Continued from last week)

Recently the Bureau of Education addressed a letter to about 50 city school superintendents asking them why parents should visit the schools, what they observe, and what information they should seek of the principals and teachers. The following is a summary of their replies:

Reasons Parents Should Visit the School.

1. To keep in touch with the work of their children.
2. To encourage the teachers.
3. To get firsthand information about the work of school.
4. To show their willingness to cooperate with the administration of the school.
5. For the moral effect it will have on the pupil to know that parents and teachers are pulling together in his training and discipline.
6. To become acquainted personally with teachers and principals.
7. To learn at firsthand the conditions under which their children spend five hours a day.
8. To learn the problems children must meet (course of study, easy studies, difficult studies, time schedules, etc.)
9. To make it more possible for school officials to interpret to parents the policies under which the school operates.

10. To advise school authorities as to the needs of the district as seen from the parent's standpoint.
11. To assist in obtaining certain things for the school that some districts seem unable to offer, such as cafeteria equipment, victrolas, motion picture equipment, etc.
12. To know the conditions and needs of the school so that they may intelligently defend the reputation of the school and assist in keeping the schools from being commercialized and propagandized.
13. To view children from an angle other than that of the home and thus be able to guide more wisely their development.
14. In order that parent's themselves may understand and appreciate changes in courses of study.
15. To secure an accurate idea of the objectives are being worked out in practice.
16. To aid in developing the real school spirit in the community.

What to Observe.

1. The sanitary condition of the school building.
2. The general discipline and management of the school.
3. The attitude of teacher toward the children.
4. The attitude of children toward the teachers.
5. Size of the classes.
6. The supply of supplementary materials as maps, dictionaries, etc.
7. The physical conditions under which teachers and pupils are working.
8. Facilities offered for the development of the health of the children, playgrounds, nurses' quarters, etc.
9. To what extent their own children participate in school activities.
10. Equipment of school especially as relates to library, gymnasium, shop instruction material, etc.

Information Parents Should Seek

1. What parents can do to help the school.
2. Whether any bad habits have been noted in pupils.
3. What is the general school success of the child.
4. Are the teachers' salaries adequate.
5. What are the qualifications demanded of the teaching force.
6. General policies of the school department.
7. Specific facts about parents' own children.
8. Per capita cost as compared with that of other cities.
9. Whether the child is working up to his full capacity as determined by intelligence and educational tests.
10. What are the vocational tendencies of the child if any are manifest.
11. Purpose of the various courses of study.
12. Reasons for making or not making changes in course of study.
13. Finances of school districts, tax rate, indebtedness, etc.
14. Is pupil in best course best suited to his capacity and needs.
15. Does pupil show any special aptitudes; disabilities.
16. Has pupil too many outside activities.
17. Is pupil courteous and helpful.
18. Does pupil enter into a sufficient number of student activities?
19. What provisions are made for backward and for superior children?

DORAN CROSSING

The Sunday guests of C. A. Spittler and family were Claude Garrison and family, Wm. Hampton and family, Olen York and daughter Pearl, all of Twin Lakes.

Mrs. George Black spent the past week with her parents Mr. and Mrs. Arter at Akron.

C. A. Spittler and family were Plymouth visitors Wednesday.

Aldene Spittler spent Saturday and Sunday with Lillie Tucker.

Ray Riner and wife and Byron Spittler and family spent Saturday in Fort Wayne.

The election returns were received by radio and special phones at Doran Crossing store; midnight supper was served to a large number.

Exactly so. Wilson and Wilton were discussing the morality when the first put this question: "Well, what is conscience, anyhow?" "Conscience," said Wilton, who prides himself upon being a bit of a pessimist, "is the thing we always believe should be the other fellow."—Tulaco Blade.

Had Plenty of Time

"Yes, boys," continued the steeple Jack, who was telling "true and thrilling stories," "I was working a clock tower one afternoon about twelve minutes to 6, when I slipped, slid down the roof and caught on the long hand of the clock. There I dangled while the town folks collected below. Se 1 yells to 'em, 'Say you folks, go home to your supper, I'll be close to half an hour before I drop.'"

Awful Possibility

Her mother insisting that she should fast what she had on her plate, little Marjory exclaimed: "If you make me eat another bite, mamma, I shall be humped in my stomach like the grandpa."—Boston Transcript.

The Mentone Basket Ball team broke even on their basket ball games in the last week. The score, when they played Silver Lake, was 32 to 5, in Mentone's favor. They could not get to scoring during the first ten minutes, but at the end of the half the score stood 20 to 0 in their favor. HARRISON COMMUNITY FAIR AND FARM BUREAU MEETING

Farm Bureau members and others who failed to attend the joint Farm Bureau meeting and school fair at the Harrison community consolidated school on Friday evening, Nov. 7, missed a rare treat.

Principal Oliver Teel and his corps of able teachers had spared no pains to make the affair both pleasant and profitable to those present.

The school rooms were lighted and much of the pupils' work in evidence for inspection, making it a splendid opportunity to see both the new building and work being done during school hours.

The manual training room contained the schools' exhibit of corn potatoes, apples, pears, squashes, pumpkins, eggs, honey, soybeans etc., which had been judged in the afternoon by county agent, T. A. Parker.

The program consisted of short plays by 7th and 8th grade pupils, and several readings and orchestra music. County Farm Bureau chairman, Russel Norris, also gave a short talk. The next Farm Bureau meeting will be held in Mentone on Monday evening, November 24th, at the theatre room.

CELEBRATE GOLDEN WEDDING ANNIVERSARY

Last Sunday, November 9th, marked the golden wedding anniversary of Mr. and Mrs. William Whetstone, and a large number of their relatives and friends gathered at their home on north Franklin street to help them celebrate the day. Eighty nine guests were present and at the noon hour all gathered around the big table to enjoy the delicious dinner which had been so abundantly prepared. Mrs. Whetstone's sisters Mrs. Julia Summe of Silver Lake, Mrs. Clarence VanGilder of Peru and Mrs. Albert Bussert of Rochester, were with them to help celebrate their fiftieth wedding anniversary. Mr. and Mrs. Whetstone received many useful and beautiful gifts, and at the close of day all departed for their homes having enjoyed the day together.

AUTOS COME TOGETHER, SUNDAY

Last Sunday morning as Alonzo Blue, Jr. was driving toward Mentone just south of town and started to turn on the pavement a car following him driven by a Mr. Irvine of Burk crashed into him and smashed up both touring cars, but luckily no one was hurt. This perhaps is another case where both drivers should have been more careful. The car turning should have given the proper signal and the driver following should have been on the lookout for signals.

SHAFFER & GOODWIN NOW IN THEIR NEW BUILDING

The Big Drug Store, owned by Shaffer & Goodwin, was moved Tuesday to their new location on the corner of Main and Broadway formerly occupied by Clarks store. C. W. Shaffer and C. E. Goodwin purchased this building several months ago and have been working a force of men for the past several weeks repairing and making it into a modern business room. The work, with the exceptions of a few things, is now completed and we can truthfully say that they have an up-to-date business room. They have 2000 square feet of floor space on the main floor and a nice basement under the store. The floor of the store is that fine Terrozo floor which not only makes a fine appearance but is as good as it looks. They have put in fine display windows, and everything is now up-to-date and modern. The people of Mentone and vicinity should appreciate the work that has been done on this building and the improvement which it makes for our town. We understand they have a fine stock of new merchandise which will be offered to the public in their new building.

LIMITED CARS DO NOT STOP AT MENTONE

The Winona Service company has announced a new schedule over the Winona lines and this new schedule has several limited cars both ways through Mentone that do not stop here only for through passengers. A number of changes has also been made in the time of the local cars.

The Gazette has always upheld the Interurban line and we have continually suggested to our readers and the business men that they give the line all possible patronage and that they should use the Interurban for freight shipments instead of shipping by trucks. Now, our anger is up, and we feel that if these passenger cars go through Mentone without stopping for local passengers, and that it will be now almost impossible for us to go to Warsaw or any other town close by and get back home in any reasonable time, that they do not care for our business or else they would not make such a drastic change which almost puts the Interurban out-of-use for Mentone and vicinity. School children and teachers who have been using the cars regularly cannot now go to and from their school without waiting a long time for the local cars.

Another very dangerous thing about the new schedule is that the limited cars go by the main street crossing in Mentone without stopping and we warn our readers to watch this crossing when going east. We believe that a bell or watchman would be a very good thing for this crossing. Perhaps some of our readers have a suggestions whereby we might prevail upon the Winona Service Company for a reconsideration of their new schedule.

WHITE CITY EGG FARM GETS CAR LOAD OF BROODER STOVES

The White City Egg Farm, under the management of C. L. Manwaring, is not only growing in size but in popularity as well. Tuesday they received an entire car load of brooder stoves which they will sell to customers. These are the Newtown brooder stoves, and this is the largest shipment ever sent to any one firm in Northern Indiana for retail use. Mr. Manwaring has been elected president of the State Poultry Associated of Indiana, which gives us an idea of his ability as a poultryman and the value the association has in our local man.

THE ENCHANTED HILL

by Peter B. Kyne

On a certain spring day two notorious things happened to Lee Purdy, ex-aviator, dreamer, and owner of a big ranch in New Mexico called The Enchanted Hill. Bud Shannon, a total stranger, took a long shot at him with a rifle and a bit later at a deserted railroad stop Lee met the loveliest girl he had ever laid eyes on. With the aid of a quick brain and an iron nerve, he managed to escape Bud's bullet, but his heart had no such easy escape from Grail Ormsby.

So Peter Kyne begins this new story with a thrilling mystery and a girl, and from these two elements springs one of the most gorgeous novels the author of Never the Twain Shall Meet, The Pride of Palomar and Kindred of The Dust, has written.

Asbestos.
The earliest use of asbestos was for spinning and weaving, to make incombustible thread and para rope and cloth, and this has continued to be the most important use of asbestos ever since the days of the Greeks and Romans. Only the best grades can be used for this purpose, according to the United States geological survey, department of the interior. Thread can now be spun so fine that it will run about 32,000 feet to the pound.

Why Birds Never Fall.
Birds cannot open the foot when the leg is bent; that is the reason they do not fall off their perch when asleep. If you watch a hen walking you will notice that it closes its toes as it raises the foot and opens them when it touches the ground.

The West.
The younger Michaux, to his travels west of the Alleghenies in 1802, says that the common inquiry in the newly settled west, "From what part of the world have you come?" As if these east and fertile regions would naturally be the place of meeting and common country of all the inhabitants of the globe.—Henry David Thoreau.

When Cleaning Leather.
Don't use gasoline to clean leather unless you want to crack it. Plain water with a few drops of ammonia will remove the dirt, after which the upholstery should be rubbed briskly with a soft cloth. An excellent leather dressing is made by combining two parts of linseed oil to one of turpentine.

Where Rain Never Falls.
It is believed that the driest place in the world is that part of Egypt between the two lower falls of the Nile. Rain has never been known to fall there.

Admiration.
He is a very unhappy man who sets his heart upon being admired by the multitude, or affects a general and un distinguishing applause among men.—Richard Steele.

"More and Better Stories!"

THAT was the idea we had when we started to make "Telling Tales" Magazine, and we have lived up to it.

Every month there are from a dozen to fifteen complete short stories by such writers as Octavus Roy Cohen, Achmed Khamel, Thomas, Thomas, Thomas, Edgeline, Christine Whiting, Parmenter, Katherine, Metcalf, Rod, Margaret Langston, Harry Kemp and Robert W. Lindson. All of these regular contributors to America's leading short-story magazine.

But don't take our word for it. We want you to know "Telling Tales" for yourself, and as a special inducement we are making the following offer:

"Telling Tales" is regularly \$5c. a copy—\$1.80 a year, but to give you a chance to get acquainted with it, here's what we'll do. Send a quarter for one issue—the regular price—and we will send THREE copies instead of the one you paid for. This offer is for a limited time only. The post office won't allow us to make it indefinite. Act today. Send us \$5c. coin or stamp, and receive the worth of magazine. Readers' Publishing Corporation 700 Broadway, New York City, N. Y.

Health Found in Sun's Rays.
Sun-glare has its influence on health in Europe. In France, medical specialists have recommended the rays of Brittany and Normandy for a big time instead of the hot and glaring sands of the southern coasts. This is the choice especially for children and for persons over fifty whose sight is growing dim. Less attention has been given the matter in England, but preference for places on the east and west coasts instead of in the south is growing for people with weak eyes.

IN MEMORIAM

On April 2, 1892, Joseph A. Bechtol son of Zachariah and Mary Jane Brazier Bechtol, was born in Preble county, Ohio. Here, he spent his childhood and the greater part of his life.

About sixteen years ago he came to Indiana, located on the farm which he made his future home.

On October 9, 1910, he was united in marriage to Lona Belle Goshert. One son, Dwight, came to bless this union.

After a few days illness he passed into the Great Beyond at the Lutheran hospital, Fort Wayne October 22, 1924, leaving the wife, son, sister-in-law who made her home with them, two brothers and two sisters, who will miss him most.

He was a devoted husband, a kind father, a true brother and exemplary citizen, both in the community in which he formerly lived and where he spent his later years.

THE FIRST SNOW OF THE SEASON

Our first snow of the season began Sunday afternoon and after giving us a few of the white flakes it stopped until Monday and started in right, and by six o'clock in the evening several inches of snow lay on the ground. This was our first winter weather and the thermometers registered from 5 to 15 above zero. Today, Wednesday, it is about all gone and the sun is shining warm again.

SODALES CLUB

The Sodales club met last Thursday afternoon, November 13th, with Mrs. Foster Jones as hostess. Seventeen members responded to roll call with echoes from the world war, which were very interesting. JUST DAD

He may wear a last year's straw hat, his finger nails may need manicuring, his vest may hang a little loose, and his pants may bag at the knees, his face may show signs of a second day's growth, and the tin dinner bucket may be filled with dents and doughnuts; don't call him "the old man." He's your father.

For years and years he has been rustling around to get things together. Never once has he failed to do the right thing by you. We all know he thinks you are the greatest boy on earth, bar none, even though you plaster your hair back, wear smart clothes, smoke cigarettes and fail to bring home a cent. He is the man who won the life partnership of the greatest woman on earth—your mother.

He is "some" man and not "the old man." If you win as good a wife as he did, you will have to go some, boy.

gyman for putting him to sleep.—

Beliefs Concerning Teeth.
There are curious fancies about
teeth. To dream about teeth was held
to be a warning that sorrow was at
hand, and it was still more unlucky
to dream of one's teeth falling out.
Many people still show an extracted
tooth into the fire for luck, and this
is observed especially in the case of
young children to ensure that the re-
mainder of their teeth will come prop-
erly. Teeth wide apart is said to be
a sign of future prosperity and hap-
piness.

Horsehide—Double Tanned That Always Stays Soft

Here is a Wolverine shoe for year 'round wear. The tops are
high enough to keep out the mud and dirt of the spring and
fall, low enough for coolness in the summer and are ideal in
the winter to wear under an overshoe. Because of its general
utility this Wolverine is one of our largest sellers. Made of
Cordovan horsehide, there is almost no wear-out to the upper;
our experience has been this upper will wear out on an average
two pairs of half soles. A light weight work shoe that is soft
when you buy it, and stays that way.

"Can your little baby brother talk yet?" a kindly neighbor inquired of a small lad. "No, he can't walk, and there ain't no reason why he should talk," was the disgusted reply. The Backward Bird.

The flamingo performs a number of its daily duties in a backward or upside down manner. When the flamingo dives, it rests its head in the mud on the bottom of a shallow stream, and while it strains the insects out of the water it takes both a backward and an upside-down view of the world about it.

GRANDPA MANWARING PASSED AWAY IN OHIO

DEATH CLAIMS FORMER MENTONE RESIDENT

OBITUARY

Elliott Manwaring was born in Osgo County, New York, May 31 1834; died at Oberlin, Ohio, November 21, 1924; aged 90 years, 9 months, and 8 days.

He was bro't by his parents to Kosciusko County, Indiana, in 1844 and settled just east of Palestine.

He was married to Sarah Dulaney in 1854. To this union were born seven children, one dying in infancy, one son, Frank, at the age of 6, and one daughter, Mary, at the age of 30, leaving three sons, Artemus C., Loron D., and John A., and one daughter, Susan, now Mrs. Nelson Clay, of Oberlin, Ohio, to grow to maturity.

He united with the Franklin Township Baptist church of this county, at the age of 13, and remained a member until the church disbanded, and when the Seavastopol Baptist church was organized he became one of its charter members. In 1886 when the Mentone Baptist church was organized he had his membership transferred from the Seavastopol church and became a charter member of this church also. He retained his membership here till death, having been made a deacon for life.

Having been bereaved of his wife in 1887, he was married again in 1896 to Anna A. Dilly, which union proved to be a most happy and blessed one. Bereft again in 1922 and in declining health, his daughter, Mrs. Clay, took him to her home in Oberlin, where she tenderly cared for him till his peaceful passing to his eternal home and to his rich reward.

Father Manwaring was a marked example of quiet, unostentatious and utterly unselfish devotion to the highest ideals of the home, of neighborly relationships and of the church. After nearly 80 years lived in one limited locality it is a beautiful tribute to his Christlike life that he leaves only the most gracious and the most tender memories in the hearts of all those who knew him.

He leaves, to miss the benediction of his earthly presence, but to await their glad reunion with him, two sons, Loren D. and John A., and one daughter, Mrs. Susan Clay, with their families, and the families of his son, Artemus, who preceded him to that heavenly country four years ago.

The body was brought back to Mentone and the funeral was held Tuesday at the Baptist church conducted by Rev. Sarber of the Central Baptist church of Gary, and the remains were placed in the Palestine cemetery.

The man who can—does; the man
who can't—talks.

Don't be afraid of big things—a
Packard steers easier than a Ford.

When you play, play hard, when
you work, don't play at all.

The driver is often the most dan-
gerous part of an automobile.

You can't be a howling success
simply by howling.

The man who whistles when he is
sad is wiser than the one who weeps.

A great many people who expect
to be angels may need asbestos
wings.

Let the crossing gates close before
you, rather than the pearly gates be-
hind you.

Dead fish float downstream. Game
fish swim upstream. Nothing stands
still. Which way are you headed?

Today (Thanksgiving) is the
big conflict between turkey, china,
and grease.

Woman's love for dry goods and
man's love for wet goods are the two
things which break up many happy
homes.

Rather than climb the golden stairs
to heaven some people find it easier
to slide down the banister to the
other place.

What of the drivers of present
day vehicle devices who drive
with excessive speed through the
public thoroughfares of traffic.

You may cuss the fool hen for in-
sisting upon crossing the road just in
front of your speeding automobile—
but in doing so do not forget that the
engineer of the "Express" has the
same opinion concerning you.

"The world usually pushes a man
the way he makes up his mind to go.
If going up, they push him up; if
going down, they push him down—
gravitation, however, making the
speed greater in the decline."

Speed, speed and more speed!
Such seems to be the craze of the
present day. The year records the
death of four or five auto races, a
prominent driver of harness horses,
and several flyers. All due to the
one desire for speed. But such is
the expectation in the speed world,
notwithstanding the fact that the
racer has practically a clear track
ahead of them.

THANKSGIVING

Today, Thanksgiving, November
27, 1924, is a day set aside for offer-
ing up thanks and will be observed
as usual by Americans all over the
world. The day is observed in the
United States as well as many other
countries over the world in com-
memoration of our Pilgrim fathers
who came to this country and landed
at Plymouth, Massachusetts and when
their first harvest came in the fall
of 1621, they met to give thanks and
at the proclamation of Governor
Bradford three days were set aside
for feasting and thanksgiving. Since
that time we have observed the day
which is now known as a national
holiday.

We look back with reverence to
these Pilgrims, whom we owe
much and can see why they should
observe the day, yet haven't we, as
free Americans, much more to be
thankful for than our forefathers.
Take a look back over the past year
and note the many things for which
you should be thankful and let us
not feel that life is all in vain, and
while we are enjoying our Thanks-
giving turkey (should we be so lucky
as to have this fine fowl on our din-
ner table) let us remember our
Pilgrim fathers and the noble work
they did for us.

A MAN'S BEST FRIEND

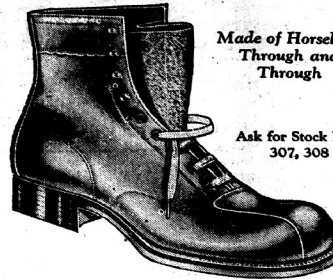

A man may lose house and lot,
His friends may pass him by,
He may not have a dime left
To rent a slab of pie;
But if he owns the homeliest
And saddest dog in town,
He has one pal whose honest love
Will never turn him down.
A man may kick his mangy pup
And cuss him day and night,
Still will the faithful cur be true
And greet him with delight;
Lifelong he sits upon the porch
And wags his happy tail,
To greet his lord when he shall come
From Congress or from jail.
To know what to do is wisdom;
To know how to do it is skill;
To do it as it should be done is ser-
vice.

Snakes' Power Over Birds.
The bureau of biological survey
states that snakes do not charm birds
in the understood sense of the word
"charm." The instinctive fear that a
bird or small animal, such as a rob-
bit, has for a snake paralyzes the
muscles of the bird or animal and
prevents its escaping from the snake.

Born, Wed and Died Together.
Born together, and married about
the same date, the twin daughters of
Mr. J. D. Smith of Ramsgate, Eng-
land, died within a few days of each
other. They were thirty-two years of
age, and heart trouble was the cause
of death in both cases.

Horsehide—Double Tanned That Always Stays Soft

Here is a Wolverine shoe for year 'round wear. The tops are
high enough to keep out the mud and dirt of the spring and
fall, low enough for coolness in the summer and are ideal in
the winter to wear under an overshoe. Because of its general
utility this Wolverine is one of our largest sellers. Made of
Cordovan horsehide, there is almost no wear-out to the upper;
our experience has been this upper will wear out on an average
two pairs of half soles. A light weight work shoe that is soft
when you buy it, and stays that way.
