EXCURSION

TO
Cheyenne Co. Nebraska

Why not take in the grand harvest excursion to SIDNEY, NEBRASKA? Will be run over the PITTSBURGH, Ft. WAYNE & CHICAGO R. R. via Chicago, thence over the Great Burlington Route, C. & N. W. R. R. via Council Bluffs and Omaha, thence over the Union Pacific to Sidney, Nebraska.

Tuesday, Sept. 25, '88.

Fare from Plymouth, Ind. \$27.45 for the Round Trip. Good for 30 days.

Sidney, county seat of Cheyenne Co., Neb., a growing town of 1500 inhabitants, has doubled in valuation of property in the last two years. It has a Military Post, excellent schools and churches. It is a division station on the U. P. Railroad and the seat of a United States Land Office. Gen. Morrow says: "The beauty and fertility of this portion of Nebraska is attracting the attention of the whole country." From July 1, 1887 to July 1, 1888 over 375,000 acres of

GOVERNMENT LAND

was filed upon at the Sidney Land Office. Add to this the thousands of acres of Railroad Lands sold during the same time and it takes as very great proportion to foresee the end of cheap lands in Cheyenne Co., Nebraska. The last struggle for cheap land is now at hand. Cheyenne Co. being situated near the rich oil and mining districts of Wyoming and Colorado, will always have a good home market. To any purchaser buying of not less than 100 we will refund \$15.00 of his Railroad fare, or the whole fare to purchasers of not less than 320 acres. Don't miss this opportunity! Land which can yet be bought at from \$5.00 to \$10.00 per acre will soon be selling at from \$20.00 to \$30.00 per acre. Why rent land when you can secure homes at these prices? LOCAL NEWS.

What We Wish Our Friends to Remember.

When we began publishing the GAZETTE we had nothing to encourage us except our confidence in the town and our belief in the possibilities of establishing a business here by hard work.

We have worked hard, many a time all night, to get the paper out when we could not afford to hire the help needed.

We have never asked our business men or anybody else to advance us a penny to help us through; neither have we bowed them by urging them to patronize the paper but have left them to exercise their own judgment in the matter and it was all right with us.

By careful economy we have kept the office free from debt, and have made continual additions to it until now we have a first-class valuable printing establishment.

We are printing all our news into the business here, having begun making arrangements to build. The value of our newspaper outfit now consists largely in the fact that we have it located among friends who appreciate our work. We mention these facts because two citizens of our town are just now doing their utmost to injure the GAZETTE.

Neither of them take the paper, but both, on account of certain things which we have published have taken such unpardonable offense at us that they will not dignify to speak to us on the street—these two within the last few weeks have been interviewing the business men of the town for the purpose of inducing them to withdraw their patronage from the GAZETTE, hoping thereby to frighten us into selling out to a stranger who has no money, not even to make a first payment. Of course we do not anticipate annihilation just yet, but we are willing that our readers should know of some of the difficulties to be met by a newspaper publisher at the hands of narrow-minded persons who are willing to sacrifice the best interests of a whole community, if by so doing they can gratify their own personal spite.

Sidney, county seat of Cheyenne Co., Nebraska, has doubled in valuation of property in the last two years. It has a Military Post, excellent schools and churches. It is a division station on the U. P. Railroad and the seat of the United States Land Office. Gen. Morrow says: "The beauty and fertility of this portion of Nebraska is attracting the attention of the whole country." From July 1, 1887 to July 1, 1888 over 3,375,000 acres of

GOVERNMENT LAND

was filed upon at the Sidney Land Office. Add to this the thousands of acres of Railroad Lands sold during the same time and it takes no very great prospect to foresee the end of cheap lands in Cheyenne Co. Nebraska. The last struggle for cheap land is now at hand. Cheyenne Co. being situated near the rich oil and mining districts of Wyoming and Colorado, will always have a good home market. To any purchaser buying of a tract less than 100 we will refund \$15.00 of his Railroad fare, or the whole fare to purchasers of not less than 200 acres. Don't miss this opportunity! Land which can yet be bought at from \$5.00 to \$10.00 per acre will soon be selling at from \$20.00 to \$30.00 per acre. Why rent land when you can secure homes at these prices?
