## Our Greatest Asset

The greatest asset we can have as a bank is the GOOD WILL of our customers. This asset, your confidence and friendliness, is priceless—it cannot be bought. But it can be earned—and it is our constant effort to earn it through rendering better service, greater safety and real banking satisfaction.

# Thousands of Farmers

Have found that Standard Oil Products reduce maintenance and operating costs and prevent mechanical breakdowns, and that the To-The-Farm delivery of these products by the local Standard Oil Agent often eliminates costly delays and layoffs of men and machines.

## FOREWORD

In presenting this catalog of the Fourth Annual Mentone Community Fair we wish to thank you for your patronage of former years. Last year with more than twelve thousand admissions, we had by far the most successful of our fairs. The Association is striving to make this year's Fair bigger and better than ever. Upon inspection of this catalog you will find that new departments are being added. Thus we move forward. We ask your assistance toward:  
**A GOOD FAIR IN A GOOD COMMUNITY**

### ARE YOU LUCKY?

This year the association is printing a number of lucky catalogs. We have concealed in various advertisements the two words "Free Pass". Search carefully through the advertising sections of this catalog. If this is a lucky one, present it at the Admission Office and receive your free pass for the entire Fair.

### ARE YOU LUCKY?

### IMPORTANT ANNOUNCEMENT

Winners in all events and exhibits may receive premium checks at secretary's office on SATURDAY. This will facilitate the work of the department superintendents. Do not ask for them at any other time. Your cooperation will be appreciated.

ERRATA—There is an error on page 50, in the Mollenhour advertisement in a number of these catalogs. During the printing of this page some of the type were pulled out of the form and was not discovered until the printing was completed, hence the top line in many catalogs is incomplete. The two top lines in this advertisement should read "Mollenhour Lumber & Manufacturing Co."

TOP GRADE EGGS, in clean, all-new packing leave no room for doubt in the mind of the buyer. It's the one sure way to command top prices every time.

MOST PACKERS now agree that good packing is as important as good eggs in building a reputation for quality—for it has been definitely proven that dirty, shabby "second hand" packing lower the flavor score of eggs through contamination.

Protect your profits with new packing all the way through—every time. It costs less in the long run.
