June. 1 4Th. 1979.

" Flag Day."

W. G. Davis, former Burket area resident now living in Florida, is back for a visit with local friends. He dropped by the NEWS office in Mentone and wondered if anyone knew the sea level of the town and where it could be found. Answering his own question, he pointed out a brass marker fastened to the foundation of the United Methodist Church that was placed there by the U.S. Coast and Geodetic Survey in 1946. An official U.S. Bench Mark, it gives the elevation as V 145. Mr. Davis formerly worked with Ball State University's geologic survey team, and his interest in the area led him to point out the marker.
