

## Jolly Jones Home-Ec Club

The Jolly Jones Home Economics Club was formed in January, 1948, with a starting membership of 19 and grew over that year to 24. The club was affiliated with Kosciusko County Extension Homemakers Clubs until the year 1972, when it became an independent organization. There are presently 4 charter members in the organization.

Meetings of the Jolly Jones Club are held in members' homes on the second Monday of each month. Programs are the responsibility of the hostesses. Many interesting and creative programs have been given since this practice was started in 1972.

An active community organization, members can be found on the streets of Mentore during Festival Days working at the egg-throw booth or helping with other projects. Any excess money that is made during the year is donated to worthwhile projects within the community.
